### For Audits and Compliance Exercises

“NII not only performed an excellent job but were instrumental in convincing our client [the IT department] on the need and benefits of adopting the standard”

Kojo Anyanful  
Director, Office of Internal Audit,  
**United Nations World Food Programme**

“NII has greatly assisted Batelco in its effort to structure its information security management framework. The NII consultants were true experts in their own domains and helped us align the processes and technology on the basis of ISO 27001. They customized their approach to suit Batelco’s requirements and executed the various phases of our Information Security Project in a timely and professional manner.

The detailed documentation, presentations, and reports provided by the NII consultants during different phases of the project were equally impressive and very professional. We are well impressed with their work so far and will continue to employ their services to help us in our strive towards ISO 27001 compliance”

Ahmed H.G. Ali  
Manager, Information Security,  
**Bahrain Telecommunication Company (Batelco)**

“Consulting services provided by NII were very good. They worked with dedication to guide us through the ISO 27001 certification. We would be pleased to continue tapping into their expertise for our information security requirements”

### Penetration Testing and Security Assessment Exercises

We would like to appreciate the services received from NII for the application security review of our website.

The consultants, Pratiksha & Khushbu, maintained good professional standards for quality review of the concerned control areas associated with the application. The findings of the review were well appreciated by the management & the road for implementation of the recommendations is set. Considering the quality of service, we would surely want to build a healthy business relationship ahead in the coming times.
